

NORT²H Presents: 

Digital Storytelling

Creating dynamic presentations with digital photos

What is Digital Storytelling??

Digital Storytelling is the modern expression of the ancient art of storytelling. Digital stories derive their power by weaving images, music, narrative and voice together, thereby giving deep dimension and vivid color to characters, situations, experiences, and insights. Tell your story now digitally.

- Leslie Rule, Digital Storytelling Association

Types of Digital Stories

Video Slide Shows
Photos with Sound Tracks

Animations
Stories that read or show what you type
